Patient: Sharlena Luyen

To whom it may concern,

Sharlena Luyen is a patient under my care and is being treated for a psychiatric illness within the DSM-V diagnostic manual. I am writing this letter at the request of Ms. Luyen whom I meet with regularly for medication management. Ms. Luyen meets criteria for a mental health disability that impacts her ability to perform at her fullest potential within the traditional test taking times. I recommend that she be given addition testing time related to her job application process.

Sincerely,

Katherine Kilkenney
